HOSTELRY / HOME

Marine Business is continuing its expansion within the Home and Garden market, in which it has entered strongly after launching several lines of specially designed melamine tableware.

This season it is also starting in the Hospitality sector. The melamine tableware and unbreakable synthetic glassware are the perfect products for restaurants, hotels, holiday cottages and apartments that wish to provide their customers with sophisticated items without compromising on safety and practicality. New laws state that glass and porcelain cannot be used in outdoor areas, meaning **Marine Business** is the ideal alternative in these markets.

NEW DISTRIBUTORS

Every year **Marine Business** increases its expansion in both the nautical sector as well as the new range of products for Home, Garden and Hospitality.

Recently, three new countries have joined the list of points of sale of the brand's products: Tunisia, Morocco and India are now part of the **Marine Business** distributor network.

If you'd like to be a part of our team of distributors, don't hesitate to contact us! mb@marinebusiness.net

CONSTANTLY INNOVATING!

This season Marine Business is presenting **three new tableware collections** for the home, as well as two more inspired by sailing: the Bali series, for the most sophisticated customers in the nautical sector and the Monaco collection; non-slip tableware ideal for those keen on practicality. These tableware sets can be complemented with new unbreakable glass lines in various designs and sizes.

This year's innovation is the accessories' line, Party: Marine Business has created new wine and champagne coolers that come with a support to hold glasses. This is a practical but also elegant item that can be matched with any of the brand's melamine tableware sets. In the same collection, the glass and beaker foldable trays have been redesigned to improve the system for carrying them more easily.
